Edited by **Maharaj Vijay Reddy, Keith Wilkes**

Many of the key themes that are seen as challenges to achieve sustainability and to mitigate climate change impacts in the near future are addressed in this book, as applied to the tourism sector. A major feature is the integration of climate change and sustainability challenges, rather than treating them separately or with sustainability as an add-on. It includes details of responses and initiatives, including those of agencies such as the World Tourism Organization, and presents case studies from locations such as Southern Africa, Scandinavia, the Maldives and the Pacific islands.
