

Taylor & Francis

College Textbooks
Design, Photography,
Fashion and Textiles

Welcome

At Taylor & Francis and Routledge we are here to help with your academic needs for your College. Explore our A Level texts and if there are any subject areas not included in this catalogue which you require resources for, do get in touch with us and we will see what we can provide.

We are, as always, keen to view textbook publishing as a collaborative process and look forward to working with you in the future.

Request Complimentary Inspection Copies!

Select textbooks are available for consideration for course adoption, available as e-Inspection Copies for you to request and review.

College Roadshows

We can arrange tailored roadshows for your college where we bring along a selection of titles for tutors and librarians to browse. Please contact your local T&F Representative for more details or see the following link:

<https://www.routledge.com/go/college-online-catalogue>

Inclusive Course Textbook Provision

Inclusive Coursebook Provision enables institutions to provide 1-to-1 access to their class texts, either through eBook platform integration or through simply purchasing print books for their students. For more information please go to:

<https://taylorandfrancis.turtl.co/story/textbook-provision-for-college-students/page/1>

Librarians

All titles featured are available in print and eBook format. To view our Librarians Resources pages please go to:

<https://librarianresources.taylorandfrancis.com/>

To explore our extensive Journals Collection please go to:

<https://www.tandf.co.uk//journals/sublist.asp>

4TH EDITION

An Introduction to Design and Culture

1900 to the Present

Penny Sparke

An Introduction to Design and Culture provides a comprehensive guide to the changing relationships between design and culture from 1900 to the present day. Over a hundred illustrations are used throughout to demonstrate the breadth of design and examples – among them design in Modern China, the work of Apple Computers Ltd, and design thinking – are used to elaborate key ideas. The new edition remains essential reading for undergraduate and postgraduate students of design studies, cultural studies and visual arts.

Designing for Longevity

Expert Strategies for Creating Long-Lasting Products

Louise Møller Haase, Linda Nhu Laursen

This book provides designers, developers, and creators with five distinctive expert strategies, detailed case studies, action guides and worksheets that support both beginning and advanced design practitioners in creating new product concepts with long-lasting strategic fits. Key case studies of products such as Bang & Olufsen's A9, LEGO Ninjago and Friends and Coloplast's Sensura Mio, among others, offer readers inspiration, guidance and real-world insights from design teams. Illustrated in full colour throughout, this book combines original research and the hands-on tools and strategies that design practitioners need to create useful, sustainable products.

Introduction to Design Theory

Philosophy, Critique, History and Practice

Michalle Gal, Jonathan Ventura

Designed both as a course book and a source for research, Introduction to Design Theory methodically covers the central concepts of design theory, definitions of design, its historical milestones, and its relations to culture, industry, body, and ecology, language, society, gender, and ideology. Aimed towards undergraduate and postgraduate students, as well as teachers and scholars, from across the design disciplines, it invites readers to engage with design from an interdisciplinary perspective, departing from the traditional academic compartmentalization of practice, history and philosophy.

Sketching as Design Thinking

Alma R. Hoffmann

This book argues for the importance of sketching as a mode of thinking, and the relevance of sketching in the design process, design education, and design practice. Sketching as Design Thinking explains how drawing and sketching remain a prominent aspect in our learning and creative process, and provides a rich resource for students of visual art and design.

The Design Student's Journey

understanding How Designers Think

Bryan Lawson

Learning to become a designer can be tremendous fun but it can also be frustrating and at times painful. What you have to do to become a designer is not often clearly laid out and can seem mysterious. Over the past fifty years or so we have discovered a great deal about How Designers Think. This book relies upon that knowledge but presents it in a way specifically intended to help the student and perhaps the teacher. Bryan Lawson's classic book How Designers Think has been in print since 1980 and has gone through four editions to keep it up to date. This book can be seen as a companion volume for the design student.

Communicating Fashion Brands

Theoretical and Practical Perspectives

Emily Huggard, Jon Cope

This book demonstrates how fashion brands communicate, why the practice is significant within wider society and how it can be perceived as culturally meaningful. Written for scholars and practitioners, this book is a valuable blend of theory and practice across the fields of fashion, communication and branding.

Fashion Buying and Merchandising

The Fashion Buyer in a Digital Society

Rosy Boardman, Rachel Parker-Strak, Claudia E. Henninger

Series: Mastering Fashion Management

Fashion buying and merchandising has changed dramatically over the last 20 years. Aspects such as the advent of new technologies, the changing nature of the industry into one that is faster-paced than ever before, as well as the shift towards more ethical and sustainable practices have resulted in a dramatic change of the roles. This book is ideal for all fashion buying and merchandising students, specifically second and final year undergraduate as well as MA/MSc fashion courses. It will also be useful to academics and practitioners who wish to gain a greater understanding of the industry today.

Fashion Entrepreneurship

The Creation of the Global Fashion Business

Neri Karra

Series: Mastering Fashion Management

This book provides the first authoritative history of the global fashion industry, from its emergence to the present day, with a focus on the entrepreneurs at the nucleus of many of the world's influential brands. It shows how successive generations of entrepreneurs built and developed the brands too, democratizing access to fashion brands and extending fashion's reach. This book includes case studies and interviews that Neri Karra has conducted over 10 years with designers, managers, CEOs, and influential figures in fashion. It explores the emerging culture of street style and blogging, comparing that to the dawn of the nineteenth-century fashion brands and industry.

2ND EDITION

Fashion Journalism

Julie Bradford

Fashion Journalism presents a comprehensive overview of how this branch of journalism operates and how to report on the industry. This new and updated edition addresses the pivotal role played by social media, bloggers and influencers, the skills needed to plan, shoot and present video and the current state of fashion journalism internationally. The book includes case studies and interviews with fashion journalists, as well as with stylists, PR executives, photographers and bloggers.

Fashion Marketing and Communication

Theory and Practice Across the Fashion Industry

Olga Mitterfellner

Series: Mastering Fashion Management

This book draws together interdisciplinary approaches from marketing, branding, promotion and critical media studies as tools for understanding the way in which fashion works today, and re-evaluates what makes certain fashion marketing tactics fashionable. Examining the last 100 years of marketing and communications, current theory and practice, as well as questions on the ethics of the fashion industry, this broad-ranging and critical text is perfect for undergraduate and postgraduate students of fashion marketing, branding and communication.

Foundations of Flat Patterning and Draping

For the Female Form

Larissa McConnell

Foundations of Flat Patterning and Draping: For the Female Form provides the foundational tools necessary for success in the techniques of flat patterning and draping clothes and costumes. The techniques in this book generalize across sizes and shapes making it universally applicable for the student technician, as well as the person the garment is being developed for. Presented in an accessible format with clear instructions and detailed illustrations, this book is well suited for use as a textbook for the undergraduate college instructor teaching costuming or fashion, as well as for the student or individual learning on their own in theatre, film, or fashion industries.

Principles of Textile Printing

Asim Kumar Roy Choudhury

Series: Textile Institute Professional Publications

This book discusses technical aspects of textile printing, covering almost all topics related to textile printing, including the types and quality of printing important for user satisfaction. It offers historical and introductory aspects of textile printing, styles and methods of printing, and printing and ancillary machines. It describes a variety of existing technologies and a wide range of designs created by applying colours in restricted portions using printing tools. The book aims to educate those readers from large printing houses as well as from cottage and smaller boutique printers so that their products meet fastness standards.

Responsible Fashion Business in Practice

Sustainable Concepts and Cases across the Fashion Industry

Sennait Ghebream, Sally Heale

Series: Mastering Fashion Management

This unique text offers a holistic, insightful and timely exploration of sustainable practices across the fashion industry. The book takes the reader logically through each part of the authors' new Responsible 9 Framework™: for each of the nine aspects, contemporary case studies from global brands such as Stella McCartney, Zalando and Arc'teryx, alongside insights from current, leading experts within the fashion world, bring the theory to life.

Sustainable Fashion Management

Claudia E. Henninger, Kirsi Niinimäki, Marta Blazquez, Celina Jones

Series: Mastering Fashion Management

This book provides a holistic and accessible approach to Sustainable Fashion Management. It offers an interdisciplinary and practical outlook, combining theory with practical application from a management perspective and underpinned by the Sustainable Development Goals throughout. This is an essential textbook for those investigating sustainable fashion, whether from a design or management perspective, providing the knowledge and tools for a future career. It is designed to serve Fashion courses, at all levels, and will also be valuable reading for those already working within the fashion industry and studying for professional qualifications.

Textile Design

Products and Processes

Michael Hann

Series: Textile Institute Professional Publications

This book includes fundamentals of textile processing technology with explanation of craft techniques, various stages of processing fibres and yarns with useful, readily understandable, line drawings. Fibrous types, dyes, yarns and cloths have been explained and material is supported by glossary and explanation of processing stages from fibre to finished cloth. Further, the considerations of relevance to the development and preparation of a design collection are outlined and discussed. Various testing procedures, including fibre, yarn and cloth identification methods, and important innovations in textile products and processing are identified and explained as well.

The Fashion Business

Theory and Practice in Strategic Fashion Management

Dario Golizia

This book provides a clear understanding of the different business strategies and models across all markets of the fashion industry. It provides a wholistic and practical approach to strategic fashion management and marketing, the book covers brand image, supply chain, communication, price point, and social media. Each chapter features interviews with experts, student activities and reflection points. Theoretically grounded yet practical in its approach, this is important reading for advanced undergraduate and postgraduate students of Strategic Fashion Management, Fashion Marketing and Communications, Fashion Merchandising and Luxury Fashion.

The Path to Net Zero for the Fashion Industry

Five Strategies for Decarbonisation

Simon J. Kew

This book uses a quantitative science-based approach to explain where the greenhouse gas emissions emitted by the fashion industry are generated and it explores what strategies can be deployed to achieve Net Zero by 2050. It aims to demystify the source of emissions from the industry, breaking down in detail their origin, while identifying the steps that can be taken when designing and sourcing new products. This book serves as a practical guide for designers, buyers, and the fashion industry in general to develop and understand approaches and strategies to reduce energy consumption and the resulting GHG emissions to reach Net Zero.

The Psychology of Fashion

Carolyn Mair

Series: The Psychology of Everything

The Psychology of Fashion provides a succinct overview of how our thinking and behavior is affected by the fashion industry. From how clothing can affect our cognitive processes to the way retail environments manipulate consumer behavior, the book takes an evidence-based approach that separates myth from reality. It examines how fashion design can undermine healthy body image, and how psychology can inform a more sustainable perspective on the production and disposal of clothing. Including further reading for those wishing to explore the topic further, this is the ideal introduction for anyone interested in this fascinating area.

Graphic Design

Learn It, Do It

Katherine A. Hughes

This book is an introduction to the fundamentals of graphic design and the software applications used to put these concepts into practice, specifically the Adobe Creative Suite. The book is intended for production-oriented audiences, those interested in the what, why and how of graphic design. Based on the approach of learning then doing, which in this environment translates to reviewing the basics then experimenting with design within the Adobe applications. A series of discussions and open-ended activities are included at the end of each chapter intended to further the conversation and invite creative expression of design using the Adobe Creative Suite.

Joyful Infographics

A Friendly, Human Approach to Data

Nigel Holmes

Series: AK Peters Visualization Series

In Joyful Infographics, one of the leading graphic designers of recent times shows how a judicious use of humor can make infographics more understandable. Written in non-academic, easy to understand language, and with historical and contemporary visual examples presented throughout, this small book provides a short history of light-hearted graphics; it outlines eight clear ways to make graphics more understandable; it explores the importance of the audience; it shows you how to make information come alive during presentations through live-action 'performance' graphics; it discusses why joy and smiling are good for you; and it shows you how not to overdo it.

The Art of Type and Typography

Explorations in Use and Practice

Mary Jo Krynski

Type and Typography is an introduction to the art and rules of typography. Incorporating the industry standard for typesetting – InDesign - from the outset, beginning students learn to set type properly through tutorials, activities, and examples of student work. With a history ranging from ancient times to widespread modern use, Type and Typography provides context and fosters creativity while developing key concepts.

AutoCAD 2023 for the Interior Designer

AutoCAD for Mac and PC

Dean Muccio

Focused around a hotel suite project, AutoCAD 2023 for the Interior Designer provides the Interior Design student with a non-intimidating, tutorial based approach to learning the AutoCAD program. It accomplishes this by taking students that have no computer design experience from simple commands to complete projects in this single-semester sized text. This well organized and progressive approach to learning AutoCAD sets this text apart from others. To support all users, this book covers AutoCAD for both Macs and PCs.

SDC Publications

Interior Design Using Autodesk Revit 2023

Introduction to Building Information Modeling for Interior Designers

Daniel John Stine

The intent of this book is to provide the interior design student a well-rounded knowledge of Autodesk Revit tools and techniques. These skills can then be applied to enhance professional development in both academia and industry. Each book also includes access to nearly 100 video tutorials designed to further help you master Autodesk Revit. The overall premise of the book is to help you learn Revit while developing the interior of a two story law office.

Carbon Transfer Printing

A Step-by-Step Manual, Featuring Contemporary Carbon Printers and Their Creative Practice

Sandy King, Don Nelson, John Lockhart

Series: Contemporary Practices in Alternative Process Photography

Carbon Transfer Printing is about one of the earliest photographic processes that provided the first permanent printing methods. This book reviews the extensive history of carbon transfer and related pigment processes in both monochrome and color, to serve as point source for a new carbon printer to begin to master the craft of carbon printing, as well as provide new material for experienced carbon printers. The book includes never-before-published information on pre-sensitizing carbon tissue with newly identified compounds, information on the safe use and disposal of hexavalent chromium compounds, and simplified methods of producing 3-color carbon prints.

Close-up and Macro Photography

Its Art and Fieldcraft Techniques

Robert Thompson

Focusing on fieldcraft techniques for macro and close-up photography, Thompson covers the vital but often overlooked skills necessary to achieve consistent professional results in the field. Case studies covering a broad and often challenging group of subjects from the seashore to your back garden form the core of the lavishly illustrated book. Biology, life history, subject behaviour and ethics along with best practice approaches are discussed in detail and underpinned with photographic tips.

2ND EDITION

Jill Enfield's Guide to Photographic Alternative Processes

Popular Historical and Contemporary Techniques

Jill Enfield

Series: Alternative Process Photography

Jill Enfield's Guide to Photographic Alternative Processes, 2nd edition is packed with stunning imagery, how-to recipes, techniques and historical information for emulating the ethereal, dream-like feel of alternative processing. Whether in a darkroom using traditional chemicals, at the kitchen sink with pantry staples, or in front of the computer re-creating techniques digitally, you will learn how to add a richness and depth to your photography like never before. This edition is comprehensively updated to include more techniques and a companion website with step-by-step videos of processes.

6TH EDITION

Photography

A Critical Introduction

Edited by **Liz Wells**

Now in its sixth edition, this seminal textbook examines key debates in photographic theory and places them in their social and political contexts. Written especially for students in further and higher education and for introductory college courses, it provides a coherent introduction to the nature of photographic seeing. A fully updated resource information, including guides to public archives and useful websites, full glossary of terms and a comprehensive bibliography, plus additional resources at routledgetextbooks.com/textbooks/9780367222758/ make this an ideal introduction to the field.

Street Photography

Creative Vision Behind the Lens

Valérie Jardin

Follow Valérie Jardin on an inspiring photo walk around the world in Street Photography: Creative Vision Behind the Lens. Valérie takes you along on a personal photographic journey as she hits the streets of her favorite urban haunts. She shows you the art of storytelling through her photographs, from envisioning the image to actually capturing it in the camera. Learn about the technical and compositional choices she makes and the thought process that spurred the click of the shutter. Perfect for both the new and the experienced street photographer, Street Photography requires no special equipment, just a passion for seeing and capturing the extraordinary in the ordinary.

2ND EDITION

The Film Developing Cookbook

Bill Troop, Steve Ansell

For nearly two decades The Film Developing Cookbook has helped photographers acquire a working knowledge of photographic chemistry—what photo chemicals do and why—for black and white film developing. Now reissued in a revised edition, this must-have manual for photographic film development techniques covers films, their characteristics, and the developers each require for maximum control of the image. Readers will learn how to mix and use photographic solutions from scratch, and even how to create new ones. Includes invaluable information about films, developer ingredients, formulas, speed increasing, mixing and storing stock solutions, stop baths, and chemical safety.

2ND EDITION

Why Art Photography?

Lucy Soutter

Why Art Photography? 2e provides a lively, accessible introduction to the ideas behind today's most striking photographic images. Exploring key issues such as ambiguity, objectivity, staging, authenticity, the digital and photography's expanded field, the chapters offer fresh perspectives on existing debates. It also traces concepts and visual styles back to their origins, drawing on carefully selected examples from recognized international photographers. Images, theories and histories are described in a clear, concise manner and key terms are defined along the way. This updated edition includes expanded coverage of the globalization of art photography and over 40 images.

2ND EDITION

Academic Writing for International Students of Science

Jane Bottomley

This second edition is an accessible companion designed to help science and technology students develop the knowledge, skills and strategies needed to produce clear and coherent academic writing in their university assignments. Using authentic texts to explore the nature of scientific writing, the book covers key areas such as scientific style, effective sentence and paragraph structure, and coherence in texts and arguments. Throughout the book, a range of tasks offers the opportunity to put theory into practice. This is an invaluable tool for the busy science or technology student looking to improve their writing and reach their full academic potential.

The Psychology of Effective Studying

How to Succeed in Your Degree

Paul Penn

This book provides a vital guide for students to key study skills that are instrumental in success at university. It uses a combination of research from cognitive psychology, humour and practical examples to convey where students often go fundamentally wrong in their studying practices and provides clear and concise advice on how they can improve. The book covers time management, academic integrity, writing essays, team work, and other key required skills for academic study. Written in a humorous and irreverent tone, and including illustrations and examples from popular culture, this is the ideal alternative and accessible study skills resource for any student at undergraduate level.

2ND EDITION

The Researcher's Toolkit

The Complete Guide to Practitioner Research

David Wilkinson, Dennis Dokter

Designed for those undertaking research for the first time, the second edition of The Researcher's Toolkit is a practical and accessible guide for all those partaking in small-scale research. Jargon-free and assuming no prior knowledge, it covers the entire research process, from defining a research topic or question through to its completion. This book is a must-read guide for students and budding researchers as well as educators seeking to explain academic research and writing to their pupils. It will benefit anyone looking to complete a research project whether inside academia or beyond.

The Student Wellbeing Toolkit

Preparing for Life at College, University and Beyond

Camila Devis-Rozental

Series: *Routledge Study Skills*

The Student Wellbeing Toolkit puts wellbeing at the centre of your journey into university and beyond. By encouraging self-efficacy and a focus on the things you can control, it provides clear guidance to enhance wellbeing and opportunities for self-reflection that help develop self-awareness and prosocial skills for life. Drawing on research evidenced theories around positive psychology, theories of learning, motivation, and self-development, the book explores what, how, and why these areas are key to our wellbeing and the rationale for taking them into account to enable you to flourish and thrive at university.
