

An aerial photograph of a rugged coastline. The image shows steep, rocky cliffs covered in green vegetation, meeting the ocean. Waves are breaking against the rocks, creating white foam. In the distance, a small town or village is visible on a hillside overlooking the sea. The sky is clear and blue.

4TH EDITION

## Thematic Cartography and Geovisualization

**Terry A. Slocum, Robert B. McMaster, Fritz C. Kessler,  
Hugh H. Howard**

This comprehensive and well-established cartography textbook covers the theory and the practical applications of map design and the appropriate use of map elements. It explains the basic methods for visualizing and analyzing spatial data and introduces the latest cutting-edge data visualization techniques. The fourth edition responds to the extensive developments in cartography and GIS in the last decade, including the continued evolution of the Internet and Web 2.0; the need to analyze and visualize large data sets (Big Data); the changes in computer hardware (e.g., the evolution of hardware for virtual environments and augmented reality); and novel applications of technology.

3RD EDITION

## Hazard Mitigation and Preparedness

An Introductory Text for Emergency Management and Planning Professionals

**Dylan Sandler, Anna K. Schwab**

An essential text for today's emerging professionals and higher education community, the third edition of Hazard Mitigation and Preparedness provides accessible and actionable strategies to create safer, more resilient communities. Known and valued for its balanced approach, Hazard Mitigation and Preparedness assumes no prior knowledge of the subject, presenting the major principles involved in preparing for and mitigating the impacts of hazards in emergency management. Updated real-world examples of different tools and techniques allows for the application of knowledge and skills.

3RD EDITION

## Disaster Recovery

**Brenda D. Phillips, Jenny Mincin**

Disaster Recovery continues to serve as the most comprehensive book of its kind and will span the core areas that recovery managers and voluntary organizations must tackle after a disaster. It remains the go-to textbook for how to address and work through housing, donations, volunteer management, environmental recovery, historic and cultural resources, psychological needs, infrastructure and lifelines, economic recovery, public sector recovery, and much more. Features include instructor's manual, PowerPoints, a free consultation with the authors upon adoption of the text; updated discussion questions; references and recommended readings; and updated resources for each chapter.

3RD EDITION

## Introduction to Emergency Management and Disaster Science

**Brenda D. Phillips, David M. Neal, Gary R. Webb**

A definitive resource, the Introduction to Emergency Management and Disaster Science presents the essentials to better understand and manage disasters. The third edition of this popular text has been revised and updated to provide a substantively enriched and evidence-based guide for students and emerging professionals. The new emphasis on disaster science places it at the forefront of a rapidly evolving field. The Introduction to Emergency Management and Disaster Science is a must-have textbook for graduate and undergraduate students and is also an excellent source of information for researchers and professionals.

4TH EDITION

## Migration Theory

Talking across Disciplines

*Edited by* **Caroline B. Brettell, James F. Hollifield**

The revised fourth edition of *Migration Theory* continues to offer a one-stop synthesis of contemporary thought on migration. Editors Caroline B. Brettell and James F. Hollifield remain committed to include coverage that is comparative and global in scope while enhancing similarities and differences between academic fields. Designed for undergraduate and graduate courses in migration studies, a primary goal of the text is to assist instructors in guiding students who may have little background on migration to, understand important issues and debates. This makes the book a valuable guide not only to the perspectives of one's own discipline but to those of cognate fields.

## Disaster and Emergency Management Methods

Social Science Approaches in Application

*Edited by* **Jason D. Rivera**

Written to engage students and to provide a flexible foundation for instructors and practitioners, this interdisciplinary textbook provides a holistic understanding of disaster and emergency management research methods used in the field. Readers are presented with the considerations that must be made before engaging in the research process, while relevant, and fascinating real-world applications provide a window into how methodological approaches are being applied in the field. Disaster and Emergency Management Methods serves as an effective way to empower readers to approach their own study of disaster and emergency management research methods with confidence.
